Canyoning Tsagkaraki, Central Evia

A beautiful gorge in the "heart" of Evia! It is located at the foothills of the imposing Mt. Dirfis, near Makrykapa village and is characterized by dense vegetation and a rich fir forest that harmoniously embraces the alpine peaks that surround it.

It is a canyon of relatively low difficulty with several descents up to 20 meters high, without particularly technical points or narrow passages, which includes quite a bit of River Trekking due to its long length.

The deep blue pedestals with their crystal waters are ideal for diving and water slides and offer unforgettable moments!

Abseiling, diving and water slides in the azure pools

Wonderful views of alpine and sub-alpine landscapes

A natural "playground" for Canyoning enthusiasts (and more!)
