

Out-of-Bounds Play "13"

See the 1-3 set in diagram 1. O5 backscreens for O4, who cuts to the hoop for a pass and lay-up, but if not open moves to the short corner. O5 and O1 screen for O2 (diagram 2), who cuts around the double-screen to the right wing-corner for a pass and shot. But the best part is after screening (the defense usually switches the screens), O5 seals and slips inside for the pass and lay-up.
